

## 939 Additional Area Code

[English Versión](#) (Link to the English version)

Starting on August 1<sup>st</sup>, 2001, telephone numbers will be assigned the area code 939. Persons who already have telephone numbers will continue with their area code 787.

Starting on July 15, 2001, all persons making a telephone call in Puerto Rico must dial ten digits.

The way to make calls in Puerto Rico will be the as follows:

1. For calls within your local area (not long distance), you will dial ten digits: 787 or 939 and the number desired.

Example: 787-222-2222 or 939 777-777

2. For calls outside your local area (long distance calls within Puerto Rico), you will continue to dial eleven digits.

Example: 1-787-222-2222 ó 1-939-777-7777

Remember that you must re-program all telephone memories at home and at work, switchboard telephones, facsimiles, cellular telephones and alarm systems with automatic dialing, in order to add the area code to the numbers that are stored.

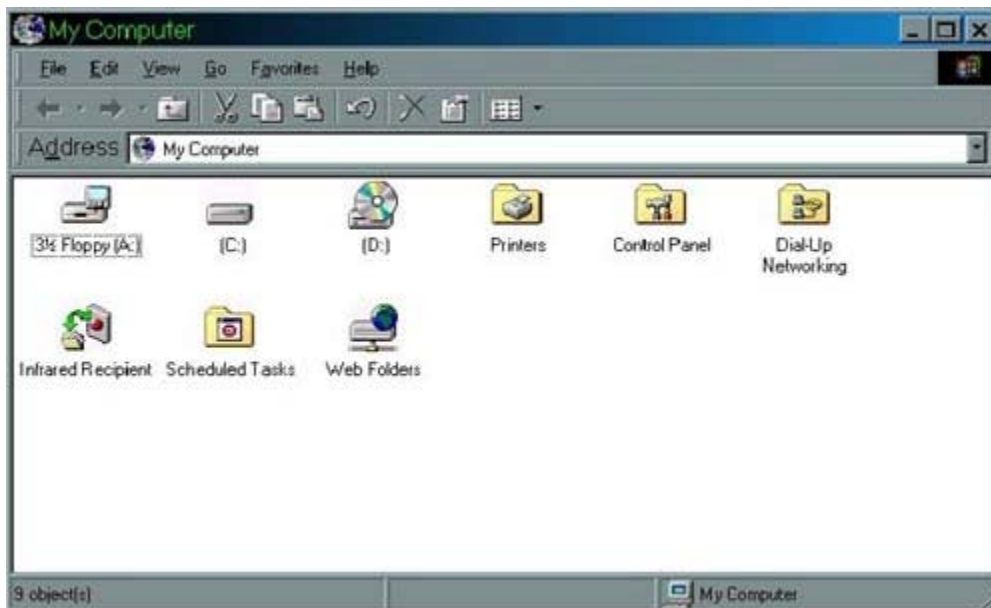

This New code and the new way of dialing do not represent any changes in rates.

## COMMONWEALTH OF PUERTO RICO
