The specific locations impacted by the copper retirements are identified in Exhibits A and Exhibit B, which may be viewed on PRTC’s website at: <https://www.claropr.com/personas/legal-regulatorio/>. Exhibit A sets forth the addresses for the specific locations impacted by the copper retirement. Exhibit B identifies certain locations, mostly in rural areas of Puerto Rico, where the physical address information in PRTC’s possession is either incomplete or unreliable. For these locations, PRTC is setting for the specific coordinates for the location of the copper facilities that will be retired.

**Description of the planned network change:** PRTC intends to retire copper distribution and copper loop facilities at the locations identified in Exhibits A and B. PRTC has deployed or plans to deploy fiber-to-the-premise as a replacement for these copper facilities in the locations identified in the Exhibits and intends to provide telecommunications and other services over these fiber facilities.

**Description of reasonably foreseeable impact of the planned changes:** After the copper facilities identified in Exhibits A and B are retired, PRTC will cease to maintain and will not offer services over them. The majority of customers currently served by copper facilities at these locations purchase “plain old telephone service” (POTS) from PRTC. After the transition to fiber, PRTC will continued to offer these customers the same POTS service over fiber at the same price that it was offered prior to the transition to fiber. Certain telecommunications services that PRTC currently offers via the copper facilities may be incompatible with fiber, however. In those instances, PRTC will work with the affected consumers and/or interconnected entity to offer alternatives and will comply with the requirements of section 63.71 of the Commission’s rules to

the extent that the service is discontinued. Any fiber-based alternative services offered to consumers and/or interconnected will be subject to the rates, terms and conditions set forth in the applicable tariff or agreement under which the service is offered.
