- (L) WATS. Service which consists of the provision of access for dial type telecommunications within Puerto Rico by means of a special tariff based on the monthly usage for non-detailed incoming or outgoing calls.

22.2 Regulation

22.2.1 Undertaking of the Company

- (A) Scope
 - (1) Wide Area Telecommunications Service (WATS), consisting of Outward WATS and "800" Service, is the furnishing of service for dial type telecommunications between a station associated with a WATS access line and points within Puerto Rico. The WATS rates set forth in this tariff cover the services furnished between the calling and the called stations.
 - (2) Dial Type telecommunications, are calls dialed and completed from or to a WATS access line without the assistance of a Company operator, except that a Company operator will:
 - a. re-establish a call which has been interrupted after the called number has been reached, or
 - b. reach the called telephone number where service is not available for customer dial completion.

22.2 Regulation (Cont.)

22.2.1 Undertaking of the Company (Cont.)

(A) Scope (Cont.)

(3) Each WATS access line will be available at the customer's option for either outward (WATS) or inward "800" service but not for both.

a. Outward Service (WATS)

WATS arranged for outward service provides for the origination of calls from a station associated with an outward WATS access line with stations within Puerto Rico, except those stations located in the local exchange area, as the WATS Access Line.

b. "800" Service (Inward WATS)

WATS arranged for inward service ("800") provides for the termination of calls directly dialed from stations within Puerto Rico with a station associated for an "800" Service, except call originated from stations located within the same "800" access line local service area. This exception does not apply to the Universal "800" services.

(4) The monthly charge for WATS access line or extension includes the provision of a standard jack termination. WATS may be connected (1) to Customer's premises terminal equipment, or (2) at a Company Central Office to Company-provided switching equipment or to an Other Common Carrier communications systems utilizing a WATS Central Office Connecting Facility. "800" Service may not be terminated as a station in switching equipment (e.g. PBX or Centrex Systems).

(5) Transmitting Messages - The Company does not undertake to transmit messages but furnishes the use of its facilities to its customer for telecommunications.

22.3 Rates (Cont.)

22.3.2 Monthly Charges

(A) Method of Determining Usage Charges

- (1) The usage charge for the WATS Access Line shall be determined using steps a. through g. following:
 - a. Determine the total number of completed calls for each rate period for each service group.
 - b. Determine the equivalent hours used by multiplying the total number of completed calls for each time-of-day rate period by the MATR for each time-of-day rate period (rounded to nearest .01 hour) for each service group, then dividing by 60 minutes. The MATR is one minute per call.
 - c. Determine the total actual hours used by each time-of-day rate period for each service group (rounded to nearest tenth).
 - d. The total chargeable usage hours for each time-of-day rate period in each service group will be whichever is the greater of the equivalent hours determined in 2 or actual hours determined in 3 preceding.
 - e. Multiply the hourly rate determined by the appropriate rate period, in the appropriate scale(s) by the number of hours used in each scale.
 - f. Calculate the total usage charge for each time-of-day rate periods by totaling the charges determined in (5) preceding.
 - g. Calculate the total usage charge for all rate periods in each service group by adding the total usage charges for each time-of-day rate period as determined in f. preceding.

22.3 Rates (Cont.)

22.3.2 Monthly Charges (Cont.)

(B) Method of Determining Fractional Recurring Charges other than Usage

Charges for a fraction of a month are determined by dividing the monthly rate by 30 to obtain a daily rate. That rate is multiplied by the number of days service is provided.

(C) Timing of Calls

- (1) Chargeable time begins when a connection is established between a station associated with the WATS access line and the calling or called station, and ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hang up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the telephone network.
- (2) When a connection is established in one rate period and ends in another, the rate in effect for each rate period applies to the duration of the connection in each rate period.
