**SECTION 19 – PAYPHONE ACCESS LINE SERVICE**

19.1 General

This service is one in which the Company provides, subject to the availability of facilities, access lines for the interconnection of customer provided public telephones. The public telephone may or may not be equipped for coins collection.

19.2 Terms and Conditions

19.2.1 Telephone Directory listings will not be provided.

19.2.2 The Payphone Service Provider (PSP) will be responsible for the installation, operation and maintenance of the pay telephone used in connection with this service.

19.2.3 Rates, charges, terms and conditions included in Section 15, Interconnection Service, Customer Provided and Maintained Equipment, apply unless otherwise specified.

19.2.4 The Payphone Service Provider (PSP) must display adjacent to the public telephone, in a visible and easy to read format, the following information:

- (A) Name and telephone number of the public telephone owner.
- (B) Information identifying the Operator Service Provider presubscribed to the public telephone.
- (C) Information identifying the Long Distance Service Provider presubscribed to the public telephone.
- (D) Address of the Commission, to which the customers may direct complaints regarding operators services.
- (E) Instructions for the equipment operation.
- (F) Local call cost.
- (G) Service use limitations due to the different types of restrictions programmed.

(S)

19.2 Terms and Conditions (Cont.)

19.2.5 The operation of this service must comply with the following conditions:

- (A) The Payphone Service Provider (PSP) equipment shall comply with all the local and Federal regulations for the interconnection of terminal equipment and their use by disable, hearing and/or speech impaired persons.
- (B) The PSP will offer, free of charges and without the use of coins, access to Operators Services, Operators Relay Services, Emergency 9-1-1, Repair Services (311/611), and 800/888 Services numbers.
- (C) The PSP must provide access to intraisland local and long distance service and access to other local or interstate carriers duly authorized to offer telecommunications services in Puerto Rico.
- (D) The PSP shall be responsible for the payment of all usage charges and monthly charges incurred on the payphone access line (normal or intelligent).
- (E) The Company may disconnect the service if the customer does not comply with the terms and conditions established under this Tariff Regulations. The service disconnection will be done according to the Company's disconnection practices and the regulations applicable to business lines.

19.3 Optional Services

19.3.1 Incoming Calls Restrictions

- (A) Incoming Calls Restrictions (Deny Terminating)(DTM) - This restriction blocks all the incoming calls.
- (B) Interstate Incoming Call Restriction Billed to the Telephone Number (Billed Number Screening) - This type of restriction provides for the blocking of interstate incoming calls with reverse and/or third number charges billed to the telephone number associated with the public telephone access line. This service will be effective only when the interstate long distance service companies and/or the Alternate Operators Service Providers use the (Line Information Data Base)(LIDB) to validate the calls.
