

PUBLIC NOTICE OF COPPER RETIREMENT UNDER RULE 51.333

November 24, 2020

Carrier: Puerto Rico Telephone Company, Inc. d/b/a Claro PR (“PRTC”)

Contact: For additional information on these copper retirements, please contact:

Mario Barrera
Chief Operations Officer
1513 Roosevelt Avenue
Guaynabo, PR 00920
(787) 749-2087

Implementation Date: On or after March 24, 2021

Locations: The planned copper retirements will take place at certain locations served by the central offices identified below and identified by Common Language Location Identifier Code (“CLLI”) in the table below.

Municipality	Central Office	CLLI	Network Node

---------	----------------	-------------	-----------

The specific locations impacted by the copper retirements are identified in Exhibits A and B, which may be viewed on PRTC’s website at <https://www.claropr.com/personas/legal-regulatorio/exhibits>. Exhibit A sets forth the addresses for the specific locations impacted by the copper retirement. Out of an abundance of caution, and to account for potential incomplete physical addresses in certain areas of Puerto Rico (particularly rural areas), PRTC also is including specific coordinates for each location. Exhibit B identifies certain other locations where the physical address information in PRTC’s possession appears to be duplicated, but PRTC believes that they correspond to separate locations. For these locations, PRTC is setting for the specific coordinates for the location of the copper facilities that will be retired.

Description of the planned network change: PRTC intends to retire copper distribution and copper loop facilities at the locations identified in Exhibits A and B. PRTC has deployed or plans to deploy fiber-to-the-premise as a replacement for these copper facilities in the locations identified in the Exhibits and intends to provide telecommunications and other services over these fiber facilities.

Description of reasonably foreseeable impact of the planned changes: After the copper facilities identified in Exhibits A and B are retired, PRTC will cease to maintain and will not offer services over them. The majority of customers currently served by copper facilities at these locations purchase “plain old telephone service” (POTS) from PRTC. After the transition to fiber, PRTC will continue to offer these customers the same POTS service over fiber at the same price that it was offered prior to the transition to fiber. Certain telecommunications services that PRTC currently offers via the copper facilities may be incompatible with fiber, however. In those instances, PRTC will work with the affected consumers and/or interconnected entities to offer alternatives, and it will comply with the requirements of section 63.71 of the Commission’s rules to the extent that the services are discontinued. Any fiber-based alternative services offered to consumers and/or interconnected will be subject to the rates, terms and conditions set forth in the applicable tariff or agreement under which the service is offered.
